

Key Information Document

CH1139776749 (the product)

Purpose This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Name of the Product	ZKB Conditional Coupon Barrier Reverse Convertible Last Look with Memory Effect on worst of SMI® Swiss Market Index/EURO STOXX 50®/S&P 500®
ISIN	CH1139776749 (the product)
Manufacturer	Zürcher Kantonalbank, our website: zkb.ch/finanzinformationen , for more information call us on +41 (0) 44 293 66 65.
Issuer	Zürcher Kantonalbank
Competent Authority	The Swiss Financial Market Supervisory Authority (FINMA) is responsible for the supervision of Zürcher Kantonalbank with regard to this Key Information Document.

This document was created on 05. January 2023, 23:44 CET.

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type This product is a debt security in the form of an uncertificated security issued under Swiss law.

Term The product has a fixed term and matures - subject to early redemption - on 22/02/2024.

Objectives The objective of this Product is to provide the Investor with an entitlement to returns in the form of Coupon Payments which are dependent on the performance of the Underlyings (each an "Underlying" and together the "Underlyings", see table below). The Coupon Payments are equal to 1.2556% p.a. of the Denomination. A Coupon payment will only be paid on a Coupon Date if the closing price of each Underlying on the relevant Coupon Observation Date is above its Coupon Level. If the closing price of at least one Underlying on the relevant Coupon Observation Date is at or below its Coupon Level, no payment shall be made on that Coupon Date. If the conditions for a Coupon payment are met on a subsequent Coupon Observation Date, all Coupon payments for previous Coupon Dates that have not yet been paid out are also paid out to the investor ("memory" function) in addition to the Coupon payment that is paid out on the relevant Coupon Date.

Repayment on maturity

If the product has not been repaid early and the investor holds the product until the Redemption Date, the maximum amount that the investor may receive is the redemption amount (as described below) plus the sum of the Coupon payments due on the Coupon Dates. The investor does not participate in the positive performance of the Underlyings.

By investing in the product, the investor will receive a redemption amount equal to 100.00% of the Denomination on the Redemption Date, provided that the Underlyings perform favourably for the investor. If the Underlyings perform unfavourably for the investor, the redemption amount may be lower. In detail:

- If the Final Fixing Value of **each Underlying is quoted above its Knock-in Level: the product** is repaid in the amount of the Denomination; or
If the Final Fixing Value of at least one Underlying is at or below its Knock-in Level: the product is repaid at an amount equal to the Denomination multiplied by the Final Fixing Value of the worst-performing Underlying divided by its Cap Level, i.e. the redemption amount is linked to the negative performance of the worst-performing Underlying. In such cases, the redemption amount is usually lower than the amount you invested.

The product is currency hedged, i.e. the calculation of the repayment does not depend on exchange rate fluctuations between the product currency and the currency of the underlying (quanto style).

If the investor purchases the product during the term, he does not pay any additional accrued interest because this is included in the trading price ("dirty price").

The investor has no entitlements arising from the underlyings and/or components of the underlying (e.g. voting rights and dividends).

The risk and return profile of the product described above will change if the product is sold before the Redemption Date.

Product information

Issue price	100.00% of Denomination	Product Currency	Underlying
Denomination	CHF 1,000.00	Value Date	Swiss Franc (CHF)
Observation Dates/Early Redemption Dates	15/11/2022 / 22/11/2022, 15/02/2023 / 22/02/2023, 12/05/2023 / 22/05/2023, 15/08/2023 / 22/08/2023 and 15/11/2023 / 22/11/2023	Trading units	22/08/2022
Last Trading Date	15/02/2024	Cap Level	CHF 1,000
Worst-performing Underlying	The Underlying for which dividing the Final Fixing Value by the Cap Level results in the lowest value.	Call Level	100.00% of the Initial Fixing Value of each Underlying
Coupon Payment	1.2556%	Redemption Date (Maturity)	100.00% of the Initial Fixing Value of each Underlying on the relevant Observation Date
Coupon Observation Dates	15/11/2022, 15/02/2023, 12/05/2023, 15/08/2023, 15/11/2023 and 15/02/2024	Mode of settlement	22/02/2024
Knock-in Level	75.00% of the initial fixing value of each	Currency Hedging	cash settlement
		Coupon Date(s)	Yes (Quanto)
		Coupon Level	22/11/2022, 22/02/2023, 22/05/2023, 22/08/2023, 22/11/2023 and 22/02/2024
			80.00% of the Initial Fixing Value of each Underlying

Underlying data

Underlying	Initial Fixing Date	Initial Fixing Value	Final Fixing Date	Final Fixing Value	Cap Level	Knock-in Level	Call Level	Coupon Level
SMI® Swiss	15/08/2022	CHF 11,164.1416	15/02/2024	Closing price on	CHF	CHF 8,373.11	CHF 11,164.14	CHF 8,931.3133

Market Index			15/02/2024	11,164.1416				
EURO STOXX 50®	15/08/2022	EUR 3,780.1487	15/02/2024	Closing price on 15/02/2024	EUR 3,780.1487	EUR 2,835.11	EUR 3,780.15	EUR 3,024.1189
S&P 500®	15/08/2022	USD 4,256.2742	15/02/2024	Closing price on 15/02/2024	USD 4,256.2742	USD 3,192.21	USD 4,256.27	USD 3,405.0193

The product provides for automatic early repayment prior to the Redemption Date if the value of **each** Underlying closes at or above its Call Level on an Observation Date. In such cases, the product is repaid on the respective Early Redemption Date at the Denomination plus the Coupon payment for the relevant period. The investor is not entitled to any further Coupon payments.

According to the product terms and conditions, in case of an extraordinary event adjustments may be made to the product and the Issuer may terminate the product early. These events are specified in the product terms and conditions, and mainly relate to the Underlyings, the product and the Issuer. In such cases, the redemption amount may be significantly lower than the purchase price. The Investor should therefore be prepared to accept a partial or total loss of his investments. In addition, the investor bears the risk of a termination at a time that is unfavourable for him and that he can only reinvest the redemption amount at less favourable conditions.

Target Market The product is aimed at Retail investors who are pursuing the objective of general asset accumulation and optimisation and have a short-term investment horizon. This product is intended for investors with extended knowledge and/or experience of financial products. The investor may bear losses up to a total loss of the invested capital and places no value on capital protection.

What are the risks and what could I get in return?

Risk indicator

Lower risk < **1** **2** **3** **4** **5** **6** **7** > Higher risk

The risk indicator assumes you keep the product until maturity. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to cash in early. You may have to pay significant extra costs to cash in early.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product in the risk class 5 on a scale of 1 to 7, where 5 corresponds to risk class a medium-high. This rates the potential losses from future performance at a medium-high level, and poor market conditions are very unlikely to impact our capacity to pay you. **If the currency of the country in which you purchase this product or of the account to which sums paid on this product are credited differs from the currency of the product, please be aware of the currency risk. You will receive payments in a different currency so your final return will depend on the exchange rate between the two currencies. This risk is not taken into account in the indicator given above.** This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period: **Until the product is called or matures. This may be different in each scenario is indicated in the table.**

Example Investment: **CHF 10,000.00**

		If you exit after 1 year	If you exit at call or maturity
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	CHF 760	CHF 5493
	Average return each year	-92.40 %	-41.11 %
Unfavourable	What you might get back after costs	CHF 8004	CHF 7373
	Average return each year	-19.96 %	-23.62 %
Moderate (products ends after 22/08/2023)	What you might get back after costs		CHF 10502
	Average return each year		5.02 %
Favourable	What you might get back after costs	CHF 10712	CHF 10753
	Average return each year	7.12 %	6.63 %

The scenarios shown represent possible outcomes calculated based on simulations. In the case of an early redemption, it has been assumed that no reinvestment has occurred.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances.

What happens if Zürcher Kantonalbank is unable to pay out?

You are exposed to the risk that the Issuer might be unable to fulfil its obligations in respect of the product – e.g. in the event of insolvency (inability to pay / over-indebtedness) or an administrative order of resolution measures. In case of a crisis of the Issuer such an order can also be issued by a resolution authority in the run-up of an insolvency proceeding. Thereby the resolution authority has extensive intervention powers. Among other things, it can reduce rights of the investors to zero, terminate the product and suspend rights of the investors. A total loss of your capital invested is possible. The product is a debt instrument and as such is not covered by any deposit protection scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and

different possible investment periods. The duration of this product is uncertain as it may terminate at different times depending on how the market evolves. The amounts shown here consider two different scenarios (early call and maturity). In case you decide to exit before the product ends, exit costs may apply in addition to the amounts shown here.

We have assumed:

- CHF 10,000.00 is invested
- a performance of the product that is consistent with each holding period shown.

	If the product is called at the first possible date 15/11/2022	If the product reaches maturity
Total costs	CHF 540	CHF 540
Cost impact (*)	5.53 %	5.69 % p.a.

(*) This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other products.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	These costs are included in the price you pay. This includes distribution costs of 1.20% p.a.	CHF 540
Exit costs	0.35 % of your investment before it is paid out to you. These costs only apply if you exit before maturity of the product.	CHF 35
Ongoing costs taken each year		
Management fees and other administrative or operating costs	There are no other ongoing costs for this product.	n/a
Transaction costs	There are no transaction costs for this product.	n/a

How long should I hold it and can I take money out early?

Recommended holding period: 22/02/2024 (maturity) The objective of this product is to provide the investor with the entitlement described above under "What is this product?" provided the product is held to maturity. The actual holding period may vary depending on the (auto)callable structure of the product.

The investor has the option to redeem the product by selling the product to the product manufacturer. The product manufacturer endeavors to publish bid prices for the product under normal market conditions on each banking day, but is not legally obliged to do so. If you sell the product before the end of the recommended holding period, the amount you then receive may be less, even substantially, than the amount you would otherwise have received.

Stock market listing	no	Last Exchange Trading Day	n/a
Smallest tradeable unit	CHF 1,000	Price quotation	quoted in per cent

In exceptional market situations or in the event of technical malfunctions, it may be temporarily difficult or impossible to purchase or sell the product.

How can I complain?

Complaints about the person advising on or selling the product may be addressed directly to that person via the relevant website. Complaints regarding the product (terms and conditions), this document or the conduct of the product manufacturer can be addressed by post to Zürcher Kantonalbank, P.O. Box, 8010 Zurich or by e-mail to documentation@zkb.ch or visit our website www.zkb.ch/finanzinformationen.
