

# **ZKB Discount Certificate on u-blox Holding AG**

## 29/12/2023 - 29/04/2024 | Swiss Security Code 121 824 691

#### Summary

This Summary is to be understood as an introduction to the present Final Terms. Any investment decision in relation to the products must be based on the information contained in the Base Prospectus and in these Final Terms in their entirety and not on the Summary. In particular, each investor should consider the risk factors contained in these Final Terms and in the Base Prospectus.

The Issuer can only be held liable for the content of this Summary if the Summary is misleading, incorrect or contradictory when read together with the other parts of the Final Terms and the Base Prospectus.

| Redemption Date                              | 29/04/2024  |  |  |
| Redemption Method                            | If the Final Fixing Value of the Underlying is at or above the Cap Level, the investor receives a cash redemption in the amount of the Denomination. If the Final Fixing Value of the Underlying is below the Cap Level, the Underlying is delivered. The number of Underlyings per Denomination is defined in Ratio (fractions will be paid in cash, no cumulation).   |  |  |
| Listing                                      | Application to list on the SIX Swiss Exchange will be filed, the planned first trading day will be 29/12/2023   |  |  |
| Secondary Market                             | Under normal market conditions, Zürcher Kantonalbank intends to provide bid and/or ask prices for this product on a regular basis. There is no obligation to provide corresponding liquidity. The non-binding indicative quotes can be found at www.zkb.ch/finanzinformationen.   |  |  |
| Clearing Agent                               | SIX SIS AG/Euroclear/Clearstream  |  |  |
| Distribution Fees                            | No distribution fees in the form of a discount on Issue price, reimbursement of a part of the Issue price or other one-off and/or periodic charges are paid out to one or several distribution partners of this product.  |  |  |
| Sales: 044 293 66 65                         | SIX Telekurs: .zkbReuters: ZKBSTRUCTInternet: www.zkb.ch/finanzinformationenBloomberg: ZKBY <go></go>   |  |  |
| Key elements of the product                  | The ZKB Discount Certificate is an investment instrument that combines the purchase of an<br>Underlying with the simultaneous sale of a call option. This allows the investor to benefit from<br>the current volatility of the Underlying. An above-average return is achieved when prices fall<br>slightly, stagnate or rise slightly. If the Final Fixing Value of the Underlying is at or above the<br>Cap Level, the investor receives a cash redemption in the amount of the Denomination. If the<br>Final Fixing Value of the Underlying is below the Cap Level, the Underlying is delivered. The<br>number of Underlyings per Denomination is defined in Ratio (fractions will be paid in cash, no<br>cumulation). However, the cost price achieved in this way is lower than the price of the<br>Underlying at the time of issue.   |  |  |
| Tax aspects                                  | Any return on the product qualifies as capital gain and is generally not subject to Swiss income tax for private investors with Swiss tax domicile. The Federal securities transfer stamp tax is not levied on secondary market transactions. The product may be subject to further withholding taxes or duties, in particular under the rules of FATCA or Sect. 871(m) U.S. Tax Code or foreign financial transaction taxes. All payments from this product are made after deduction of any withholding taxes and levies. The information above is a summary only of the Issuer's understanding of current law and practice in Switzerland relating to the taxation of these products. The relevant tax law and practice may change. The Issuer does not assume any liability in connection with the above information. The tax information only provides a general overview and can not substitute the personal tax advice to the investor. |  |  |
| Documentation                                | This document is a non-binding English translation of the Final Terms (Endgültige<br>Bedingungen) published in German and constituting the Final Terms in accordance with article<br>45 of the Federal Act on Financial Services (FinSA). The English language translation is   |  |  |

the Underlying.

The table above is valid at maturity only and is by no means meant as a price indication for the present product throughout its lifetime. Additional risk factors may have a significant impact on the value of the product during the term. The price quoted on the secondary market can therefore deviate substantially from the above table. Currency risks between the Underlying and the Product are not considered in the table.

## **3. Material Risks for Investors**

Obligations under these products constitute direct, unconditional and unsecured obligations of the Issuer and rank pari passu with other direct, unconditional and unsecured obligations of the Issuer. The value of the product not only depends on the performance of the Underlying and other developments in the financial markets, but also on the solvency of the Issuer, which may change during the term of this product.

Specific product risks

**Issuer Risk** 

Structured products are complex financial instruments, which entail considerable risks and,

accordingly, are only suitable for investors who have the requisite knowledge and experience and understand thoroughly the risks connected with an investment in these structured products and are capable of bearing the economic risks. The loss potential of an investment in ZKB Discount Certificate in the case of a title delivery is limited to the difference between the purchase price of the product and the cumulative value of the number of Underlyings as defined in Ratio. The discount on the Issue Price reduces the loss of the product compared to a direct investment in the Underlying. The product is denominated in CHF. If the investor's reference currency differs from the CHF, the investor bears the risk between the CHF and his reference currency.

### 4. Additional Terms

| Modifications                           | If an extraordinary event as described in the Base Prospectus occurs in relation to an<br>Underlying/Component of the Underlying or if any other extraordinary event occurs, which<br>makes it impossible or particularly cumbersome for the Issuer, to fulfill its obligations under<br>the products or to calculate the value of the products, the Issuer shall at its own discretion<br>take all the necessary actions and, if necessary may modify the terms and conditions of these<br>products at its own discretion in such way, that the economic value of the products after<br>occurrence of the extraordinary event corresponds, to the extent possible, to the economic<br>value of the products prior to the occurrence of the extraordinary event.  |
|---|---|
| Change of Obligor                       | The Issuer is entitled at all times and without the consent of the investors to assign in whole (but not in part) the rights and claims under individual products or all of them to a Swiss or foreign subsidiary, branch or holding company of the Zürcher Kantonalbank (the "New Issuer") to the extent that (i) the New Issuer assumes all of the obligations arising out of the assigned products which the previous Issuer owed in respect of these products, (ii) the Zürcher Kantonalbank enters into a Keep-Well Agreement with the New Issuer with terms equivalent to the one between the Zürcher Kantonalbank and Zürcher Kantonalbank Finance (Guernsey) Limited, (iii) the New Issuer has received from the supervisory authorities of the country in which it is domiciled all necessary approvals for the issue of products and the assumption of the obligations under the assigned products. |
| Market Disruptions                      | Compare specific provisions in the Base Prospectus.   |
| Prudential Supervision                  | As a bank within the meaning of the Swiss Federal Act on Banks and Savings Banks (BankG; SR 952.0) and a securities firm within the meaning of the Swiss Federal Act on Financial Institutions (FinIAG; SR 954.1), Zürcher Kantonalbank is subject to the prudential supervision of FINMA, Laupenstrasse 27, CH-3003 Bern, https://www.finma.ch.  |
| Recording of Telephone<br>Conversations | Investors are reminded, that telephone conversations with trading or sales units of the Zürcher Kantonalbank are recorded. Investors, who have telephone conversations with these units consent tacitly to the recording.   |
| Further indications                     | This document constitutes neither an offer nor a recommendation or invitation to purchase financial instruments and can't replace the individual investor's own judgement. The information contained in this document does not constitute investment advice but is intended solely as a product description. An investment decision should in any case be made on the basis of these Final Terms and the Base Prospectus. Particularly, before entering into a transaction, the investor should, if necessary with the assistance of an advisor, examine the conditions for investment in the product in consideration of his personal situation with regard to legal, regulatory, tax and other consequences. Only an investor who is aware of the risks of the transaction and has the financial capacity to bear any losses should enter into such transactions.   |
| Material Changes                        | Since the end of the last financial year or the date of the interim financial statements, there have been no material changes in the assets, financial or revenue position of the Issuer.   |
| Responsibility for the Final<br>Terms   | Zürcher Kantonalbank, Zurich, assumes responsibility for the content of these Final Terms and hereby declares that, to its knowledge, the information contained in these Final Terms is correct and no material circumstances have been omitted.  |

Zurich, 19/12/2023
