

Key Information Document

CH1218252349 (the product)

Purpose This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Name of the Product	ZKB Tracker Zertifikat on ZKB Tracker on a Luxury Basket (CHF)
ISIN	CH1218252349 (the product)
Manufacturer	Zürcher Kantonalbank, our website: zkb.ch/finanzinformationen , for more information call us on +41 (0) 44 293 66 65.
Issuer	Zürcher Kantonalbank
Competent Authority	The Swiss Financial Market Supervisory Authority (FINMA) is responsible for the supervision of Zürcher Kantonalbank with regard to this Key Information Document.

This document was created on 12. June 2024, 09:07 CET.

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type This product is a debt security in the form of an uncertificated security issued under Swiss law.

Term The product has a fixed term and matures on the Redemption Date. You have the right to redemption of a redemption amount depending on the performance of the Underlying on specified dates, provided that either the Issuer exercises its Redemption right or you exercise your Right of return (as defined below).

Objectives The objective of this product is to give you the option of participating indefinitely in the positive performance of the underlying components of a basket ("ZKB Tracker on a Luxury Basket (CHF)" – the "Underlying", see below), less certain fees and costs (as specified below). The product has a fixed maturity until 24. May 2027. You have the right to redemption of a redemption amount depending on the performance of the Underlying on specified dates, provided that either the Issuer exercises its Redemption right or you exercise your Right of return (as defined below). The product replicates the performance of the Underlying, taking into account the weighting of the individual underlying components contained therein, and is therefore comparable to a direct investment in the underlying components in terms of risk. By investing in this product, investors expect an uptrend in the underlying components. Depending on price development, the price of the product may be higher or lower than the Issue price (as defined below).

Composition of the Underlying: BRUNELLO CUCINELLI SPA (ISIN: IT0004764699, Weighting: 6.45%) / Burberry Group PLC (ISIN: GB0031743007, Weighting: 5.85%) / CHRISTIAN DIOR SE (ISIN: FR0000130403, Weighting: 6.32%) / Cie Financière Richemont SA (ISIN: CH0210483332, Weighting: 6.95%) / Estee Lauder Companies Inc (ISIN: US5184391044, Weighting: 5.78%) / Ferrari N.V. (ISIN: NL0011585146, Weighting: 6.42%) / Hermes International (ISIN: FR0000052292, Weighting: 6.19%) / Hugo Boss AG (ISIN: DE000A1PHFF7, Weighting: 6.01%) / Kering SA (ISIN: FR0000121485, Weighting: 6.12%) / LVMH Moët Hennessy Louis Vuitton (ISIN: FR0000121014, Weighting: 6.20%) / Moncler S.p.A. (ISIN: IT0004965148, Weighting: 6.26%) / Prada SpA (ISIN: IT0003874101, Weighting: 6.91%) / SALVATORE FERRAGAMO (ISIN: IT0004712375, Weighting: 6.20%) / Ermenegildo Zegna N.V. (ISIN: NL0015000PB5, Weighting: 6.28%) / DR ING HC F PORS (ISIN: DE000PAG9113, Weighting: 5.80%) / The Swatch Group AG (ISIN: CH0012255151, Weighting: 6.25110148716316%)

The potential income attributable to the Underlying components (e.g. dividends, interest or other distributions) is generally reinvested (after deduction of any withholding taxes and duties) by adjusting the weighting of the relevant Underlying components.

Calculation method of the redemption amount (Redemption Method): As noted below, the product has a maturity date.

However, the investor can get his investment back early if he exercises his right of return. In addition, the Issuer may redeem the product by exercising his redemption right (see below). In each of these cases, the investor will receive a payment equal to the sum of the weighted value of the underlying components, as determined on the Relevant Exercise Date (see below), converted where applicable into the product currency, less specific fees and multiplied by the Ratio ("redemption amount"). You will incur a loss if the redemption amount is lower than the purchase price.

Product information

Issue price	CHF 100.00/102.0408% of the Value of the Underlying on Initial Fixing Date	Value Date	24/05/2024
Denomination	CHF 100.00	Last Trading Date	12/05/2027
Value of the Underlying Ratio	CHF 98.00 on Initial Fixing Date	Final Fixing Date/ Final Fixing Level	From 13/05/2027 to 14/05/2027, average of the net prices of the Underlying components achieved by the Issuer on a best-effort basis, converted into the product currency at the exchange rate(s) prevailing at that time.
Trading units	1 Product corresponds to 1 Underlying(s)	Redemption date	24/05/2027 or 5 Banking Days after the Relevant Exercise Date
Weighting	Weighting defined at the Initial fixing date in relation to the underlying components as indicated in the Composition above	Relevant Exercise Date	The exercise date on which the redemption amount is determined due to an exercise of the redemption right or right to return.
Product Currency	Swiss Franc (CHF)	Redemption right of the Issuer	Yes, as described below
Currency hedging	n/a	Right of return of the Investor	Yes, as described below
Mode of settlement	cash settlement		
Initial Fixing Date/ Initial Fixing Level	From 16/05/2024 to 17/05/2024, average of the net prices of the Underlying components achieved by the Issuer on a best-effort basis, converted into the product currency at the exchange rate(s) prevailing at that time.		

Right of return (of the investor): The investor has the right to return the products they hold on the exercise dates for the first time on 27. May 2024. On the Relevant Exercise Date, the redemption amount will be determined as set out in the "Method for calculating the redemption amount" section. The declaration of intent to exercise the right of return must be received no later than 366 calendar days prior to the respective exercise date, and must be sent directly to Zürcher Kantonalbank, Sales Structured Products Department, IHHV, P.O. Box 8010 Zurich, or e-mailed to derivate@zkb.ch and communicated via the investor's custodian bank.

Redemption right (of the Issuer): The issuer has the right to redeem the outstanding products on a daily basis on banking days at the registered office of the Issuer (the "exercise days"), for the first time on 25. May 2025. On "Relevant Exercise Date", the redemption amount will be determined as set out in the "Method for calculating the redemption amount" section. The announcement, and with it the declaration of intent to exercise the redemption right, will be made with a notice period of 366 calendar days on the official publication channel of the SIX Swiss Exchange as well as on the website of Zürcher Kantonalbank.

The Product also provides that the Issuer may terminate the Product early if certain extraordinary events occur. These events essentially relate to the product, the Issuer and the Underlying. The amount you receive in the event of such an extraordinary early termination is different from the amount you have invested and may be lower. Investors should therefore be prepared to suffer a partial or total loss of their investments. In addition, you bear the risk that notice is given at a time that is unfavourable for you and that you can only reinvest the notice amount on less favorable terms.

Redemption: Repayment due to Redemption by the Issuer or return by the investor will be effected with a value date of five banking days after the relevant exercise date.

Target Market

The product is aimed at Retail investors who are pursuing the objective of general asset accumulation and optimisation and have a medium-term investment horizon. This product is intended for investors with extended knowledge and/or experience of financial products. The investor may bear losses up to a total loss of the invested capital and places no value on capital protection.

What are the risks and what could I get in return?

Risk indicator

Lower risk < 1 2 3 4 **5** 6 7 > Higher risk

The risk indicator assumes you keep the product until maturity. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product in the risk class 5 on a scale of 1 to 7, where 5 corresponds to risk class a medium-high. This rates the potential losses from future performance at a medium-high level, and poor market conditions are very unlikely to impact our capacity to pay you. **If the currency of the country in which you purchase this product or of the account to which sums paid on this product are credited differs from the currency of the product, please be aware of the currency risk. You will receive payments in a different currency so your final return will depend on the exchange rate between the two currencies. This risk is not taken into account in the indicator given above.** This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period: 24/05/2027 (maturity)

Example Investment: CHF 10,000.00

		If you exit after 1 year	If you exit at the end of the recommended holding period
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	CHF 4960	CHF 4180
	Average return each year	-50.44 %	-25.55 %
Unfavourable	What you might get back after costs	CHF 6470	CHF 5170
	Average return each year	-35.31 %	-20.03 %
Moderate	What you might get back after costs	CHF 8800	CHF 8370
	Average return each year	-12.01 %	-5.84 %
Favourable	What you might get back after costs	CHF 11460	CHF 13690
	Average return each year	14.60 %	11.22 %

The scenarios shown represent possible outcomes calculated based on simulations.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances.

What happens if Zürcher Kantonalbank is unable to pay out?

You are exposed to the risk that the Issuer might be unable to fulfil its obligations in respect of the product – e.g. in the event of insolvency (inability to pay / over-indebtedness) or an administrative order of resolution measures. In case of a crisis of the Issuer such an order can also be issued by a resolution authority in the run-up of an insolvency proceeding. Thereby the resolution authority has extensive intervention powers. Among other things, it can reduce rights of the investors to zero, terminate the product and suspend rights of the investors. A total loss of the capital invested is possible. As a debt instrument, the product is not subject to any deposit protection scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- CHF 10,000.00 is invested.

	If you exit after 1 year	If you exit at the end of the recommended holding period
Total costs	CHF 108	CHF 120
Cost impact (*)	1.08%	0.41% p. a.

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -5.40 % before costs and -5.84 % after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	These costs are included in the price you pay. This includes distribution costs of 0.33% p.a.	CHF 40
Exit costs	0.40% of your investment before it is paid out to you. These costs only apply if you exit before maturity of the product.	CHF 40
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.3333% of the value of your investment per year.	CHF 29
Transaction costs	0% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	CHF 0

How long should I hold it and can I take money out early?

Recommended holding period: 24/05/2027 (maturity) This product is designed to be invested until the maturity date 24/05/2027. However, the product grants the investor a right of return as defined in the Final Terms of the product.

In addition, the investor has the option to redeem the product by selling the product through the stock exchange on which the product is listed or by selling the product over-the-counter to the product manufacturer. The product manufacturer will endeavor to publish bid and ask prices for the product under normal market conditions on each banking day, but is not legally required to do so. If you sell the Product before the end of the recommended holding period, the amount you then receive may be less than the amount you would otherwise have received, even substantially.

Stock market listing	SIX Swiss Exchange	Last Exchange Trading Day	12/05/2027
Smallest tradeable unit	1 debt security(ies)	Price quotation	quoted in units

In exceptional market situations or in the event of technical malfunctions, it may be temporarily difficult or impossible to purchase or sell the product.

How can I complain?

Complaints about the person advising on or selling the product may be addressed directly to that person via the relevant website. Complaints regarding the product (terms and conditions), this document or the conduct of the product manufacturer can be addressed by post to Zürcher Kantonalbank, P.O. Box, 8010 Zurich or by e-mail to documentation@zkb.ch or visit our website www.zkb.ch/finanzinformationen.
