You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type This product is a debt security in the form of an uncertificated security issued under Swiss law.

Term The product has a fixed term and matures on the Redemption Date. You have the right to redemption of a redemption amount depending on the performance of the Underlying on specified dates, provided that either the Issuer exercises its Redemption right or you exercise your Right of return (as defined below).

Objectives The objective of this product is to give you the option of participating indefinitely in the positive performance of the underlying components of a basket ("Travel & Tourism Basket" – the "Underlying", see below), less certain fees and costs (as specified below). The product has a fixed maturity until 31. December 2025. You have the right to redemption of a redemption amount depending on the performance of the Underlying on specified dates, provided that either the Issuer exercises its Redemption right or you exercise your Right of return (as defined below). The product replicates the performance of the Underlying, taking into account the weighting of the individual underlying components contained therein, and is therefore comparable to a direct investment in the underlying components in terms of risk. By investing in this product, investors expect an uptrend in the underlying components. Depending on price development, the price of the product may be higher or lower than the Issue price (as defined below).

Composition of the Underlying: Great Eagle Holdings Ltd (ISIN: BMG4069C1486, Weighting: 2.20%) / Whitbread PLC (ISIN: GB00B1KJJ408, Weighting: 4.05%) / Wynn Resorts Ltd (ISIN: US9831341071, Weighting: 3.40%) / Booking Holding Inc (ISIN: US09857L1089, Weighting: 5.18%) / InterContinental Hotels Group PLC (ISIN: GB00BHJYC057, Weighting: 4.81%) / Avolta AG (ISIN: CH0023405456, Weighting: 2.82%) / SeaWorld Entertainment Inc (ISIN: US81282V1008, Weighting: 2.66%) / Wizz Air Holdings PLC (ISIN: JE00BN574F90, Weighting: 2.55%) / Fraport AG Frankfurt Airport Services Worldwide (ISIN: DE0005773303, Weighting: 3.54%) / Accor SA (ISIN: FR0000120404, Weighting: 4.47%) / Copa Holdings SA (ISIN: PAP310761054, Weighting: 3.66%) / American Airlines Group Inc (ISIN: US02376R1023, Weighting: 3.04%) / SIXT STAMM (ISIN: DE0007231326, Weighting: 2.96%) / Delta Air Lines Inc (ISIN: US2473617023, Weighting: 3.30%) / TUI N (ISIN: DE000TUAG505, Weighting: 2.25%) / Park Hotels & Resorts Inc (ISIN: US7005171050, Weighting: 4.13%) / Texas Roadhouse Inc (ISIN: US8826811098, Weighting: 4.64%) / VICI Properties Inc (ISIN: US9256521090, Weighting: 2.91%) / Marriott Vacations Worldwide Corp (ISIN: US57164Y1073, Weighting: 1.90%) / Alaska Air Group Inc (ISIN: US0116591092, Weighting: 2.48%) / Apple Hospitality REIT Inc (ISIN: US03784Y2000, Weighting: 3.25%) / HILTON GRAND VACATIONS (ISIN: US43283X1054, Weighting: 3.25%) / Carnival Corp (ISIN: PA1436583006, Weighting: 4.82%) / Expedia Inc (ISIN: US30212P3038, Weighting: 4.45%) / Airbnb Inc (ISIN: US0090661010, Weighting: 5.36%) / CAESARS ENT INC (ISIN: US12769G1004, Weighting: 2.95%) / Avis Budget Group Inc (ISIN: US0537741052, Weighting: 2.14%) / Southwest Airlines Co (ISIN: US8447411088, Weighting: 2.99%) / Deutsche Lufthansa AG (ISIN: DE0008232125, Weighting: 2.74%) / Fosun Tourism Group (ISIN: KYG365731069, Weighting: 1.08878719648566%)

The potential income attributable to the Underlying components (e.g. dividends, interest or other distributions) is generally reinvested (after deduction of any withholding taxes and duties) by adjusting the weighting of the relevant Underlying components.

Calculation method of the redemption amount (Redemption Method): As noted below, the product has a maturity date.

However, the investor can get his investment back early if he exercises his right of return. In addition, the Issuer may redeem the product by exercising his redemption right (see below). In each of these cases, the investor will receive a payment equal to the sum of the weighted value of the underlying components, as determined on the Relevant Exercise Date (see below), converted where applicable into the product currency, less specific fees and multiplied by the Ratio ("redemption amount"). You will incur a loss if the redemption amount is lower than the purchase price.

Product information

Issue price	USD 100.00/100.00% of the Value of the Underlying on Initial Fixing Date	Value Date	17/01/2023
Denomination	USD 100.00	Last Trading Date	22/12/2025
Value of the Underlying	USD 100.00 on Initial Fixing Date	Final Fixing Date/ Final Fixing Level	23/12/2025, prices of the Underlying components on the reference exchange(s), converted into the product currency at the exchange rate(s) prevailing at that time.
Ratio	1 Product corresponds to 1 Underlying(s)	Redemption date	Or on the Relevant Exercise Date. 31/12/2025 or 5 Banking Days after the Relevant Exercise Date
Trading units	1 debt security(ies)	Relevant Exercise Date	The exercise date on which the redemption amount is determined due to an exercise of the redemption right or right to return.
Weighting	Weighting defined at the Initial fixing date in relation to the underlying components as indicated in the Composition above	Redemption right of the Issuer	Yes, as described below
Product Currency	US-Dollar (USD)	Right of return of the Investor	Yes, as described below
Currency hedging	n/a		
Mode of settlement	cash settlement		
Initial Fixing Date/ Initial Fixing Level	10/01/2023, closing prices of the Underlying components on the reference exchange(s), converted into the product currency at the exchange rate(s) prevailing at that time.		

Right of return (of the investor): The investor has the right to return the products they hold on the exercise dates for the first time on 10. January 2023. On the Relevant Exercise Date, the redemption amount will be determined as set out in the "Method for calculating the redemption amount" section. The declaration of intent to exercise the right of return must be received no later than 366 calendar days prior to the respective exercise date, and must be sent directly to Zürcher Kantonalbank, Sales Structured Products Department, IHVV, P.O. Box 8010 Zurich, or e-mailed to derivate@zkb.ch and communicated via the investor's custodian bank.

Redemption right (of the Issuer): The issuer has the right to redeem the outstanding products on a daily basis on banking days at the registered office of the Issuer (the "exercise days"), for the first time on 10. January 2023. On "Relevant Exercise Date", the redemption amount will be determined as set out in the "Method for calculating the redemption amount" section. The announcement, and with it the declaration of intent to exercise the redemption right, will be made with a notice period of 366 calendar days on the official publication channel of the SIX Swiss Exchange as well as on the website of Zürcher Kantonalbank.

The Product also provides that the Issuer may terminate the Product early if certain extraordinary events occur. These events essentially relate to the product, the Issuer and the Underlying. The amount you receive in the event of such an extraordinary early termination is different from the amount you have invested and may be lower. Investors should therefore be prepared to suffer a partial or total loss of their investments. In addition, you bear the risk that notice is given at a time that is unfavourable for you and that you can only reinvest the notice amount on less favorable terms.

Redemption: Repayment due to Redemption by the Issuer or return by the investor will be effected with a value date of five banking days after the relevant exercise date.

Target Market

The product is aimed at Retail investors who are pursuing the objective of general asset accumulation and optimisation and have a short-term investment horizon. This product is intended for investors with extended knowledge and/or experience of financial products. The investor may bear losses up to a total loss of the invested capital and places no value on capital protection.

What are the risks and what could I get in return?

Risk indicator

Lower risk < **1** **2** **3** **4** **5** **6** **7** > Higher risk

The risk indicator assumes you keep the product until maturity.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product in the risk class 7 on a scale of 1 to 7, where 7 corresponds to risk class the highest. This rates the potential losses from future performance at a very high level, and poor market conditions are very unlikely to impact our capacity to pay you. **If the currency of the country in which you purchase this product or of the account to which sums paid on this product are credited differs from the currency of the product, please be aware of the currency risk. You will receive payments in a different currency so your final return will depend on the exchange rate between the two currencies. This risk is not taken into account in the indicator given above.** This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period: 31/12/2025 (maturity)

Example Investment: USD 10,000.00

		If you exit after 1 year	If you exit at the end of the recommended holding period
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	USD 8190	USD 5580
	Average return each year	-17.95 %	-26.74 %
Unfavourable	What you might get back after costs	USD 8190	USD 5580
	Average return each year	-17.95 %	-26.74 %
Moderate	What you might get back after costs	USD 12680	USD 8930
	Average return each year	26.60 %	-5.86 %
Favourable	What you might get back after costs	USD 19490	USD 14450
	Average return each year	93.80 %	21.70 %

The scenarios shown represent possible outcomes calculated based on simulations.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances.

What happens if Zürcher Kantonalbank is unable to pay out?

You are exposed to the risk that the Issuer might be unable to fulfil its obligations in respect of the product – e.g. in the event of insolvency (inability to pay / over-indebtedness) or an administrative order of resolution measures. In case of a crisis of the Issuer such an order can also be issued by a resolution authority in the run-up of an insolvency proceeding. Thereby the resolution authority has extensive intervention powers. Among other things, it can reduce rights of the investors to zero, terminate the product and suspend rights of the investors. A total loss of the capital invested is possible. As a debt instrument, the product is not subject to any deposit protection scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10,000.00 is invested.

	If you exit after 1 year	If you exit at the end of the recommended holding period
Total costs	USD 118	USD 110
Cost impact (*)	1.18%	0.59% p. a.

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -5.28 % before costs and -5.86 % after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	These costs are included in the price you pay.	USD 60
Exit costs	0.20% of your investment before it is paid out to you. These costs only apply if you exit before maturity of the product.	USD 20
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.3% of the value of your investment per year.	USD 39
Transaction costs	0% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	USD 0

How long should I hold it and can I take money out early?

Recommended holding period: 31/12/2025 (maturity) This product is designed to be invested until the maturity date 31/12/2025. However, the product grants the investor a right of return as defined in the Final Terms of the product.

In addition, the investor has the option to redeem the product by selling the product through the stock exchange on which the product is listed or by selling the product over-the-counter to the product manufacturer. The product manufacturer will endeavor to publish bid and ask prices for the product under normal market conditions on each banking day, but is not legally required to do so. If you sell the Product before the end of the recommended holding period, the amount you then receive may be less than the amount you would otherwise have received, even substantially.
