

# Key Information Document

## ZKB Capital Protection Note with Participation on SMI® Swiss Market Index

**Purpose** This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

### Product

<b>Name of the Product</b>	ZKB Capital Protection Note with Participation on SMI® Swiss Market Index
<b>ISIN</b>	CH1214871563 (the product)
<b>Manufacturer</b>	Zürcher Kantonalbank, our website: <a href="https://zkb.ch/finanzinformationen">zkb.ch/finanzinformationen</a> , for more information call us on +41 (0) 44 293 66 65.
<b>Issuer</b>	Zürcher Kantonalbank Finance (Guernsey) Ltd
<b>Competent Authority</b>	The Swiss Financial Market Supervisory Authority (FINMA) is responsible for the supervision of Zürcher Kantonalbank with regard to this Key Information Document.

This document was created on 11. December 2025, 09:11 CET.

**You are about to purchase a product that is not simple and may be difficult to understand.**

### What is this product?

**Type** This product is a debt security in the form of an uncertificated security issued under Swiss law.

**Term** The product has a fixed term and matures on the Redemption Date.

**Objectives** The aim of this product is to grant the investor a specific entitlement at predefined conditions. The product has a fixed term and matures on the Redemption Date. It allows the investor to receive a cash payment in the Product Currency at least equal to the Capital Protection Amount on the Redemption Date, as well as a participation (see below Upside Participation Rate) in the positive performance of the Underlying. The redemption of the product depends on the Final Fixing Value of the Underlying. The redemption modalities are as follows:

- If the Final Fixing Value at or below the Exercise Price, the investor receives a redemption amount on the Redemption Date that corresponds to the Capital Protection.
- If the Final Fixing Value is above the Exercise Price, the investor receives a redemption amount on the Redemption Date corresponding to the Denomination multiplied by the Final Fixing Value divided by the Exercise Price and multiplied by the Upside Participation Rate. I.e. the redemption amount is under-proportionally linked to the positive performance of the Underlying.

The investor has no entitlements arising from the underlying and/or components of the underlying (e.g. voting rights and dividends).

The risk and return profile of the product described above will change if the product is sold before the Redemption Date.

### Product information

<b>Denomination</b>	CHF 1,000	<b>Value Date</b>	16/01/2023
<b>Issue price</b>	100.00% ** of Denomination	<b>Last Trading Date</b>	26/01/2028

### Underlying data

Underlying	Initial Fixing Date	Initial Fixing Value	Final Fixing Date	Final Fixing value
SMI® Swiss Market Index	26/01/2023	CHF 11,126.89	26/01/2028	Closing price on 26/01/2028

According to the product terms and conditions, in case of an extraordinary event adjustments may be made to the product and the Issuer may terminate the product early. These events are specified in the product terms and conditions, and mainly relate to the Underlyings, the product and the Issuer. In such cases, the redemption amount may be significantly lower than the purchase price. The Investor should therefore be prepared to accept a partial or total loss of his investments. In addition, the investor bears the risk of a termination at a time that is unfavourable for him and that he can only reinvest the redemption amount at less favourable conditions.

**Target Market** The product is aimed at Retail investors who are pursuing the objective of general asset accumulation and optimisation and have a medium-term investment horizon. This product is intended for investors with extended knowledge and/or experience of financial products. The investor may bear no losses of the invested capital and places value on capital protection.

### What are the risks and what could I get in return?

#### Risk indicator

Lower risk < **1** **2** **3** **4** **5** **6** **7** > Higher risk

**The risk indicator assumes you keep the product until maturity. The actual risk can vary significantly if you cash in at an early stage and you may get back less.**

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product in the risk class 2 on a scale of 1 to 7, where 2 corresponds to risk class a low. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you. **If the currency of the country in which you purchase this product or of the account to which sums paid on this product are credited differs from the currency of the product, please be aware of the currency risk. You will receive payments in a different currency so your final return will depend on the exchange rate between the two currencies. This risk is not taken into account in the indicator given above.** You are

entitled to receive back at least 100% of your capital. Any amount over this, and any additional return, depends on future market performance and is uncertain. If we are not able to pay you what is owed, you could lose your entire investment.

**Performance scenarios** What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

<b>Recommended holding period:</b>	31/01/2028 (maturity)
<b>Example Investment:</b>	CHF 10,000.00

		If you exit after 1 year	If you exit at the end of the recommended holding period
<b>Scenarios</b>			
<b>Minimum</b>	<b>CHF 10,000. The return is only guaranteed if you hold the product until the end of the Recommended Holding Period and the Issuer is able to meet its obligations under the product (see "What happens if Zürcher Kantonalbank Finance (Guernsey) Ltd is unable to pay out?").</b>		
<b>Stress</b>	<b>What you might get back after costs</b>	<b>CHF 9444</b>	<b>CHF 10000</b>
	Average return each year	-5.56 %	0.00 %
<b>Unfavourable</b>	<b>What you might get back after costs</b>	<b>CHF 9745</b>	<b>CHF 10000</b>
	Average return each year	-2.55 %	0.00 %
<b>Moderate</b>	<b>What you might get back after costs</b>	<b>CHF 10529</b>	<b>CHF 11257</b>
	Average return each year	5.29 %	5.68 %
<b>Favourable</b>	<b>What you might get back after costs</b>	<b>CHF 11587</b>	<b>CHF 12977</b>
	Average return each year	15.87 %	12.93 %

The scenarios shown represent possible outcomes calculated based on simulations.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances.

#### What happens if Zürcher Kantonalbank Finance (Guernsey) Ltd is unable to pay out?

You are exposed to the risk that the Issuer might be unable to fulfil its obligations in respect of the product – e.g. in the event of insolvency (inability to pay / over-indebtedness) or an administrative order of resolution measures. A total loss of the capital invested is possible. As a debt instrument, the product is not subject to any deposit protection scheme.

#### What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

#### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- CHF 10,000.00 is invested.

	If you exit after 1 year	If you exit at the end of the recommended holding period
<b>Total costs</b>	CHF 85	CHF 60
<b>Cost impact (*)</b>	0.85%	0.28%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.96 % before costs and 5.68 % after costs.

#### Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
<b>Entry costs</b>	These costs are included in the price you pay.	CHF 60
<b>Exit costs</b>	0.25% of your investment before it is paid out to you. These costs only apply if you exit before maturity of the product.	CHF 25
<b>Ongoing costs taken each year</b>		
<b>Management fees and other administrative or operating costs</b>	There are no other ongoing costs for this product.	n/a
<b>Transaction costs</b>	There are no transaction costs for this product.	n/a

#### How long should I hold it and can I take money out early?

**Recommended holding period: 31/01/2028 (maturity)** The objective of this product is to provide the investor with the entitlement described above under "What is this product?" provided the product is held to maturity.

The investor has the option to redeem the product by selling the product through the stock exchange on which the product is listed or by selling the product over-the-counter to the product manufacturer. The product manufacturer will endeavor to publish bid and ask prices for the product under normal market conditions on each banking day, but is not legally required to do so. If you sell the Product before the end of the recommended holding period, the amount you then receive may be less than the amount you would otherwise have received, even substantially.

<b>Stock market listing</b>	SIX Swiss Exchange	<b>Last Exchange Trading Day</b>	26/01/2028
<b>Smallest tradeable unit</b>	CHF 1,000	<b>Price quotation</b>	quoted in per cent

In exceptional market situations or in the event of technical malfunctions, it may be temporarily difficult or impossible to purchase or sell the product.

**How can I complain?**

Complaints about the person advising on or selling the product may be addressed directly to that person via the relevant website. Complaints regarding the product (terms and conditions), this document or the conduct of the product manufacturer can be addressed by post to Zürcher Kantonalbank, P.O. Box, 8010 Zurich or by e-mail to [documentation@zkb.ch](mailto:documentation@zkb.ch) or visit our website [www.zkb.ch/finanzinformationen](http://www.zkb.ch/finanzinformationen).
