

# Key Information Document

## 5.60% p.a. ZKB Autocallable Reverse Convertible Defensive Worst of on Bachem Holding AG, Straumann Holding AG, Alcon AG

**Purpose** This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

### Product

<b>Name of the Product</b>	5.60% p.a. ZKB Autocallable Reverse Convertible Defensive Worst of on Bachem Holding AG, Straumann Holding AG, Alcon AG
<b>ISIN</b>	CH1341403355 (the product)
<b>Manufacturer</b>	Zürcher Kantonalbank, our website: <a href="https://zertifikate.zkb.ch/EN">https://zertifikate.zkb.ch/EN</a> , for more information call us on +41 (0) 44 293 66 65.
<b>Issuer</b>	Zürcher Kantonalbank
<b>Competent Authority</b>	The Swiss Financial Market Supervisory Authority (FINMA) is responsible for the supervision of Zürcher Kantonalbank with regard to this Key Information Document.

This document was created on 10. June 2026, 01:22 CET.

**You are about to purchase a product that is not simple and may be difficult to understand.**

### What is this product?

**Type** Uncertificated securities issued in the form intermediated Securities (Bucheffekten), governed by Swiss law.

**Term** The product has a fixed term and matures - subject to early redemption - on 19/11/2027.

**Objectives** The objective of this Product is to provide the Investor with an entitlement to returns in the form of Coupon Payments which are independent of the performance of the Underlyings (each an 'Underlying' and together the 'Underlyings', see table below). The Coupon Payments are equal to 5.60% p.a. of the Denomination and are payable on the Coupon Dates.

### Repayment on maturity

If the product has not been repaid early and the investor holds the product until the Redemption Date, the maximum amount that the investor may receive is the redemption amount (as described below) plus the sum of the coupon amounts. The investor does not participate in the positive performance of the Underlyings. By investing in the product, the investor will receive a redemption amount equal to 100.00% of the Denomination on the Redemption Date, provided that the Underlyings perform favourably for the investor. If the Underlyings perform unfavourably for the investor, the redemption amount may be lower. In detail:

- If the Final Fixing Value of each Underlying is at or above its Cap Level: The product is repaid in the amount of the Denomination; or
- If the Final Fixing Value of at least one Underlying its Cap Level: The product is repaid by delivering the Underlying with the worst performance (between the Initial Fixing Date and the Final Fixing Date), i.e. the redemption amount is linked to the negative performance of the Underlying with the worst performance (between the Initial Fixing Date and the Final Fixing Date). The number of Underlyings to be delivered per Denomination is defined according to the Ratio. Remaining fractions are not delivered but settled in cash. In such a case, the investor suffers a loss if the value of the delivered Underlying on the Redemption Date, including the compensation payments (for fractions of the Underlying) and the Coupon Payments, is lower than the amount invested by the investor.

If the investor purchases the product during the term, he does not pay any additional accrued interest because this is included in the trading price ("dirty price").

The investor has no entitlements arising from the underlyings and/or components of the underlying (e.g. voting rights and dividends).

The risk and return profile of the product described above will change if the product is sold before the Redemption Date.

### Product information

<b>Product Currency</b>	Swiss Franc (CHF)	<b>Trading units</b>	Underlying
<b>Currency Hedging</b>	No	<b>Ratio</b>	CHF 1,000
<b>Mode of settlement</b>	Cash or physical settlement	<b>Coupon</b>	Denomination/Cap Level
<b>Value Date</b>	19/11/2025	<b>Coupon Dates</b>	5.60% p.a. of Denomination
<b>Last Trading Date</b>	12/11/2027	<b>Observation Dates/Early Redemption Dates</b>	19/02/26, 19/05/26, 19/08/26, 19/11/26, 19/02/27, 19/05/27, 19/08/27 and 19/11/27
<b>Redemption Date (Maturity)</b>	19/11/2027	<b>Worst performance (Worst of)</b>	12/11/26 / 19/11/26, 12/02/27 / 19/02/27, 11/05/27 / 19/05/27 and 12/08/27 / 19/08/27
<b>Denomination</b>	CHF 1,000		
<b>Issue price</b>	100.00% of Denomination		
<b>Cap Level</b>	65.00% of the Initial Fixing Value of each Underlying		
<b>Call Level</b>	100.00% of the Initial Fixing Value of each Underlying		

### Underlying data

Underlying	Initial Fixing Date	Initial Fixing Value	Final Fixing Date	Final Fixing Value	Cap Level	Call Level	Ratio
Bachem Holding AG	12/11/2025	CHF 52.025	12/11/2027	Closing price on SIX Swiss Exchange on 12/11/2027	CHF 33.8163	CHF 52.025	29.571538
Straumann Holding AG	12/11/2025	CHF 104.025	12/11/2027	Closing price on SIX Swiss Exchange on 12/11/2027	CHF 67.6163	CHF 104.025	14.789333
Alcon AG	12/11/2025	CHF 65.12	12/11/2027	Closing price on SIX Swiss Exchange on 12/11/2027	CHF 42.328	CHF 65.12	23.625024

The product provides for automatic early repayment prior to the Redemption Date if the value of **each** Underlying closes at or above its Call Level on an Observation Date. In such cases, the product is repaid on the respective Early Redemption Date at the Denomination plus the Coupon payment for the relevant period. The investor is not entitled to any further Coupon payments.

According to the product terms and conditions, in case of an extraordinary event adjustments may be made to the product and the Issuer may terminate the product early. These events are specified in the product terms and conditions, and mainly relate to the Underlyings, the product and the Issuer. In such cases, the redemption amount may be significantly lower than the purchase price. The Investor should therefore be prepared to accept a partial or total loss of his

investments. In addition, the investor bears the risk of a termination at a time that is unfavourable for him and that he can only reinvest the redemption amount at less favourable conditions.

**Target Market** The product is aimed at Retail investors who are pursuing the objective of general asset accumulation and optimisation and have a short-term investment horizon. This product is intended for investors with extended knowledge and/or experience of financial products. The investor may bear losses up to a total loss of the invested capital and places no value on capital protection.

### What are the risks and what could I get in return?

#### Risk indicator

Lower risk < **1** **2** **3** **4** **5** **6** **7** > Higher risk

**The risk indicator assumes you keep the product until maturity. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.**

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product in the risk class 5 on a scale of 1 to 7, where 5 corresponds to risk class a medium-high. This rates the potential losses from future performance at a medium-high level, and poor market conditions are very unlikely to impact our capacity to pay you. **If the currency of the country in which you purchase this product or of the account to which sums paid on this product are credited differs from the currency of the product, please be aware of the currency risk. You will receive payments in a different currency so your final return will depend on the exchange rate between the two currencies. This risk is not taken into account in the indicator given above.** This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

**Performance scenarios** What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

**Recommended holding period:** **Until the product is called or matures. This may be different in each scenario is indicated in the table.**

**Example Investment:** CHF 10,000.00

		If you exit after 1 year	If you exit at call or maturity
<b>Scenarios</b>			
<b>Minimum</b>	<b>CHF 876. The return is only guaranteed if you hold the product until the end of the Recommended Holding Period and the Issuer is able to meet its obligations under the product (see "What happens if Zürcher Kantonalbank is unable to pay out?").</b>		
<b>Stress</b>	<b>What you might get back after costs</b>	<b>CHF 2519</b>	<b>CHF 5326</b>
	Average return each year	-74.81 %	-35.31 %
<b>Unfavourable</b>	<b>What you might get back after costs</b>	<b>CHF 8160</b>	<b>CHF 7393</b>
	Average return each year	-18.40 %	-18.84 %
<b>Moderate (products ends after 19/11/2026)</b>	<b>What you might get back after costs</b>		<b>CHF 10725</b>
	Average return each year		7.25 %
<b>Favourable</b>	<b>What you might get back after costs</b>	<b>CHF 11106</b>	<b>CHF 11309</b>
	Average return each year	11.06 %	8.88 %

The scenarios shown represent possible outcomes calculated based on simulations. In the case of an early redemption, it has been assumed that no reinvestment has occurred.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances.

### What happens if Zürcher Kantonalbank is unable to pay out?

You are exposed to the risk that the Issuer might be unable to fulfil its obligations in respect of the product – e.g. in the event of insolvency (inability to pay / over-indebtedness) or an administrative order of resolution measures. In case of a crisis of the Issuer such an order can also be issued by a resolution authority in the run-up of an insolvency proceeding. Thereby the resolution authority has extensive intervention powers. Among other things, it can reduce rights of the investors to zero, terminate the product and suspend rights of the investors. A total loss of the invested capital is possible. As an uncertificated security, the product is not covered by any deposit insurance scheme.

### What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

#### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. The duration of this product is uncertain as it may terminate at different times depending on how the market evolves. The amounts shown here consider two different scenarios (early call and maturity). In case you decide to exit before the product ends, exit costs may apply in addition to the amounts shown here.

We have assumed:

- CHF 10,000.00 is invested

- a performance of the product that is consistent with each holding period shown.

	If the product is called at the first possible date 19/11/2026	If the product reaches maturity
<b>Cost impact (*)</b>	CHF 47 0.47 % p.a.	CHF 47 0.32 % p.a.

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.50 % before costs and 5.15 % after costs.

#### Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	These costs are included in the price you pay.	CHF 47
Exit costs	0.47% of your investment before it is paid out to you. These costs only apply if you exit before maturity of the product.	CHF 47
Ongoing costs taken each year		
Management fees and other administrative or operating costs	There are no other ongoing costs for this product.	n/a
Transaction costs	There are no transaction costs for this product.	n/a

#### How long should I hold it and can I take money out early?

**Recommended holding period: 19/11/2027 (maturity)** The objective of this product is to provide the investor with the entitlement described above under "What is this product?" provided the product is held to maturity. The actual holding period may vary depending on the autocallable structure of the product. The investor has the option to redeem the product by selling the product through the stock exchange on which the product is listed or by selling the product over-the-counter to the product manufacturer. The product manufacturer will endeavor to publish bid and ask prices for the product under normal market conditions on each banking day, but is not legally required to do so. If you sell the Product before the end of the recommended holding period, the amount you then receive may be less than the amount you would otherwise have received, even substantially.

Stock market listing	SIX Swiss Exchange	Last Exchange Trading Day	12/11/2027
Smallest tradeable unit	CHF 1,000	Price quotation	quoted in per cent

In exceptional market situations or in the event of technical malfunctions, it may be temporarily difficult or impossible to purchase or sell the product.

#### How can I complain?

Complaints about the person advising on or selling the product may be addressed directly to that person via the relevant website. Complaints regarding the product (terms and conditions), this document or the conduct of the product manufacturer can be addressed by post to Zürcher Kantonalbank, P.O. Box, 8010 Zurich or by e-mail to [documentation@zkb.ch](mailto:documentation@zkb.ch) or visit our website: <https://zertifikate.zkb.ch/EN>.
