FX = Exchange rate on Final Fixing Date

The relevant exchange rate is the exchange rate of the worst performing Underlying defined as an amount of the currency of the Underlying per 1 unit of the product Currency. The exchange rate on the Final Fixing Date corresponds to the WM/Reuters fixing at 16:00 London Time (Reuters: ''WMRSPOT'') resp. the cross rate Calculated from the fixing. If the fixing price is not available, a price determined by the Calculation agent is applied, which is based on the interbank spot rates at 16:00 London Time.

* Local taxes, transactions fees and foreign commissions are, if applicable, included in the Initial Fixing Value of each component and are thus borne by the holders of the structured product. This applies particularly, though not exclusively, when exercising rights associated with the structured product and/or a Rebalancing.

	If any relevant exchange is closed on an Observation Date, the next following day where all relevant exchanges are open will be used as Observation Date.
Redemption Date	20/11/2025 Early Redemption
Redemption Method	The Early Redemption depends on the value of the Underlyings on the respective Observation Date.
	 If the closing price of all Underlyings on the Observation Date is at or above the Call Level, the product will be redeemed early at Denomination. If the closing price of at least one Underlying on the Observation Date is below the Call Level, the product continues.
	If no Early Redemption event has occurred, the following redemption scenarios are possible.
	Redemption at maturity
	If the Final Fixing Value of all Underlyings is at or above the Cap Level, the product will be redeemed in cash at Denomination. If the Final Fixing Value of at least one Underlying es below its Cap Level, a physical delivery of the worst performing Underlying takes place (between Initial Fixing Date and Final Fixing Date). The number of Underlyings per Denomination is defined in Ratio (fractions will be paid in cash, no cumulation). The Coupons are paid out on the respective Coupon Date not depending on the performance of the Underlyings.
	The calculation of the Redemption is independent of any changes in foreign exchange rates between the Currency of the product and the currency of the Underlyings (Quanto Style).
Listing	The product shall not be listed on an exchange.
Secondary Market	Under normal market conditions, Zürcher Kantonalbank intends to provide bid prices for this product on a regular basis. There is no obligation to provide corresponding liquidity. The non- binding indicative quotes can be found at www.zkb.ch/finanzinformationen.
Quotation Type	During the lifetime, this product is traded flat accrued interest, i.e. accrued interest is included in the trading price ('dirty price').
Clearing Agent	SIX SIS AG/Euroclear/Clearstream
Distribution Fees/Platform Fees	Distribution fees in the form of a discount on the Issue price, reimbursement of a part of the Issue price or other one-off and/or periodic charges may have been paid to one or several distribution partners of this product. The Distribution Fees paid out to distribution partners may amount up to 1.15%. The Distribution Fees include a fee of 0.15% for the platform of the company Evooq AG, Rue de Romont 24, 1700 Fribourg, Switzerland.

Key elements of the product	A ZKB Autocallable Reverse Convertible Defensive on worst of is an investment product that can be early redeemed on defined dates depending on the performance of the Underlyings. The product pays out coupons on defined dates during the term. This product is a combined investment instrument that essentially consists of a fixed income security and the sale of a put option. This allows the investor to benefit from the current volatility of the Underlyings. An above-average return is achieved when prices fall slightly, stagnate or rise slightly. If the Final Fixing Value of all Underlyings is at or above the Cap Level, the investor receives a cash redemption in the amount of the Denomination. If the Final Fixing Value of at least one Underlying is below the Cap Level, the investor will receive a physical delivery of a number of Underlyings of the Underlying with the worst performance between Initial Fixing Date and Final Fixing Date. The calculation of the Redemption is independent of any changes in foreign exchange rates between the Currency of the product and the currency of the Underlyings (Quanto Style).
Tax aspects	The product is considered as transparent and has no predominant one-off interest (Non-IUP). The Coupon of 9.4891% p.a. is divided into a premium payment of 9.113% p.a. and an interest payment of 0.3761% p.a The option premium part qualifies as capital gain and is not subject to Swiss income tax for private investors with Swiss tax domicile. The interest payment is subject to income tax at the time of payment. The Swiss withholding tax is not levied. In the case of physical delivery of the Underlying at maturity, the federal securities transfer stamp is levied on the basis of the Cap Level. The Federal securities transfer stamp tax is not levied on secondary market transactions. The product may be subject to further withholding taxes or duties, in particular under the rules of FATCA or Sect. 871(m) U.S. Tax Code or foreign financial transaction taxes. All payments from this product are made after deduction of any withholding taxes and levies. The information above is a summary only of the Issuer's understanding of current law and practice in Switzerland relating to the taxation of these products. If the Final Fixing Value of all Underlyings is at or above the Cap Level, the performance of the product is always given by the Coupons paid out during the term. However, if the Final Fixing Value of at least one Underlying is below the Cap Level, the investor will receive a physical delivery of a number of Underlyings as defined in Ratio of the Underlying having the largest negative performance. Therefore, the investor may suffer a partial or total loss. The acquisition price of the delivered Underlyings is 80.00% of the Initial Fixing Value, which means that the performance of the product is less negative than the performance of the Underlying. This negative performance is reduced by the guaranteed Coupons paid out during the term. The table above is valid at maturity only and is by no means meant as a price indication for the present product throughout its lifetime. Additional risk factors may have a significant impact on the value of the product during the term. The price quoted on the secondary market can therefore deviate substantially from the above table. For this table it was assumed, that Salesforce.com Inc was the worst performing Underlying. This selection is just a representative example of the possible alternatives. Currency risks between the Underlyings and the Product are not considered in the table.

	3. Material Risks for Investors
Issuer Risk	Obligations under these products constitute direct, unconditional and unsecured obligations of the Issuer and rank pari passu with other direct, unconditional and unsecured obligations of the Issuer. The value of the product not only depends on the performance of the Underlying and other developments in the financial markets, but also on the solvency of the Issuer, which may change during the term of this product.
Specific product risks	Structured products are complex financial instruments, which entail considerable risks and, accordingly, are only suitable for investors who have the requisite knowledge and experience and understand thoroughly the risks connected with an investment in these structured products and are capable of bearing the economic risks. The loss potential of an investment in ZKB Autocallable Reverse Convertible Defensive on worst of in the case of a title delivery is limited to the difference between the purchase price of the product and the cumulative value of the number of Underlyings as defined in Ratio. The Coupon, which is paid out in any case, reduces the loss of the product compared to a direct investment in the worst performing Underlying. The product is denominated in CHF. If the investor's reference currency differs from the CHF, the investor bears the risk between the CHF and his reference currency.
Modifications	4. Additional Terms If an extraordinary event as described in the Base Prospectus occurs in relation to an
	Underlying/Component of the Underlying or if any other extraordinary event occurs, which makes it impossible or particularly cumbersome for the Issuer, to fulfill its obligations under the products or to calculate the value of the products, the Issuer shall at its own discretion take all the necessary actions and, if necessary may modify the terms and conditions of these products at its own discretion in such way, that the economic value of the products after occurrence of the extraordinary event corresponds, to the extent possible, to the economic value of the products prior to the occurrence of the extraordinary event.
Change of Obligor	The Issuer is entitled at all times and without the consent of the investors to assign in whole (but not in part) the rights and claims under individual products or all of them to a Swiss or foreign subsidiary, branch or holding company of the Zürcher Kantonalbank (the "New Issuer") to the extent that (i) the New Issuer assumes all of the obligations arising out of the assigned products which the previous Issuer owed in respect of these products, (ii) the Zürcher Kantonalbank enters into a Keep-Well Agreement with the New Issuer with terms equivalent to the one between the Zürcher Kantonalbank and Zürcher Kantonalbank Finance (Guernsey) Limited, (iii) the New Issuer has received from the supervisory authorities of the country in which it is domiciled all necessary approvals for the issue of products and the assumption of the obligations under the assigned products.
Market Disruptions	Compare specific provisions in the Base Prospectus.
Prudential Supervision	As a bank within the meaning of the Swiss Federal Act on Banks and Savings Banks (BankG; SR 952.0) and a securities firm within the meaning of the Swiss Federal Act on Financial Institutions (FinIAG; SR 954.1), Zürcher Kantonalbank is subject to the prudential supervision of FINMA, Laupenstrasse 27, CH-3003 Bern, https://www.finma.ch.
Recording of Telephone Conversations	Investors are reminded, that telephone conversations with trading or sales units of the Zürcher Kantonalbank are recorded. Investors, who have telephone conversations with these units consent tacitly to the recording.
Further indications	This document constitutes neither an offer nor a recommendation or invitation to purchase financial instruments and can't replace the individual investor's own judgement. The information contained in this document does not constitute investment advice but is intended solely as a product description. An investment decision should in any case be made on the basis of these Final Terms and the Base Prospectus. Particularly, before entering into a transaction, the investor should, if necessary with the assistance of an advisor, examine the conditions for investment in the product in consideration of his personal situation with regard to legal, regulatory, tax and other consequences. Only an investor who is aware of the risks of the transaction and has the financial capacity to bear any losses should enter into such transactions.
Material Changes	Since the end of the last financial year or the date of the interim financial statements, there have been no material changes in the assets, financial or revenue position of the Issuer and Zürcher Kantonalbank.
Responsibility for the Final Terms	Zürcher Kantonalbank, Zurich, and Zürcher Kantonalbank Finance (Guernsey) Limited, Guernsey, assume responsibility for the content of these Final Terms and hereby declare that, to their knowledge, the information contained in these Final Terms is correct and no material circumstances have been omitted.
